Business are required by law to provide fire safety training which can help prevent what is potentially the worst disaster which can occur for any organisation. Those responsible for workplaces must provide staff with suitable, sufficient and appropriate training to help prevent the outbreak of fire and limit the risks of fire breaking out. Prevention is the key and our courses are designed to help businesses fulfil their legal obligations as well as help ensure the safety of their employees and visitors.

Test and Certifications:

At the end of the course you will be given a test of 20 multiple choice questions. The required pass rate is 85%.

You will be able to download and print (if required) a digital certificate on completion of the course.

Main course certificates last 3 years. (Refresher courses are available and recommended every 12 months).

Who is this training for?

This course is aimed at all employees to assist them in identifying and reducing the risk that fire presents in the workplace and it is a cost effective way for employers to fulfil their legal obligation to provide their employees with the necessary understanding of fire awareness.

What does the course cover?

Introduction.

The Regulatory Reform Fire Safety Order 2005.

The Fire Triangle.

Fire Prevention.

Detecting a blaze at work.

The different types of fire and what extinguishers can be used.

Understanding of the different types of fire and what the causes may be.

Understanding of what fire extinguishers to use.

Video Presentations.

Interactive games.

Test and Certification.

“The Regulatory Reform (Fire Safety) Order 2005 applies to all non-domestic premises in England and Wales. The law applies to you if you are responsible for business premises, an employer or selfemployed with business premises, a charity or voluntary organisation or a contractor with a degree of control over any premises.”

Health and Safety Executive - HSE
